

**SAFELY TRANSPORT YOUR BOTTLES
AND TANKS WITH RANGER DESIGN**

BOTTLE HOLDERS

Tough Build

Rigorously tested, with sturdy straps ensuring tanks stay secure during transport.

Versatile Sizing

Available in various sizes to accommodate multiple tanks.

Easy Install

Designed for universal cargo van compatibility, allowing for fast and easy installation.

Ranger Design's line of bottle holders offer an economical solution for securely transporting your bottles and refrigerant tanks to and from the job site.

TOUGH

Available in both aluminum or steel, these bottle holders are designed to handle bottles that range from small 30 lb tanks to larger 50 lb tanks.

SAFE

As with all Ranger Design products, these bottle holders undergo rigorous testing to ensure long-lasting performance. Each tank is secured with a durable polyester strap and metal clasp, keeping it stable while on the go.

SIMPLE

Designed for easy installation, they are compatible with all cargo vans. As an added benefit, extra compartments can be added to the steel bottle holder to increase its storage capacity.
